

NKATEKO MONGWE RESUME

"Where others see figures, I see foresight and I seek to find meaning and reason from statistics."

Nationality: South African
Cell Number: +2772 1150 415
Email Address: mongwenj@yahoo.com
Education: 1) Grade 12 (Exemption);
2) Marketing Management Diploma; IMM GSM;
3) Digital Marketing Certificate: Red & Yellow

Background:

Nkateko Mongwe is a transformative and emerging data professional with demonstrated, impactful expertise across marketing, media, and digital environments. I have more than 13 years of experience working in data, insights, analytics, intelligence, and reporting across a wide range of roles.

I am a self-motivated, objective-driven professional who consistently exceeds standard expectations. I am highly detail-oriented, deeply focused on understanding processes end to end, and meticulous about organization and structure. My professional mantra is to be an advocate for high-quality outputs.

1 | Measurement & Reporting: I have demonstrated experience in data analytics and refined technical skills in building and managing marketing & media reporting dashboards. Capabilities in applying AI and machine learning techniques for data-driven marketing automation, predictive modelling, anomaly detection, and performance optimisation.
2 | Media Market Intelligence Expertise: I have an impressive skillset that uses currency data to provide media & marketing intelligence insights. Skilled in analyzing media landscape trends, competitive activity, audience behaviour, and channel performance. I translate media & market intelligence into actionable strategies that support planning, positioning, and media placement decisions.
3 | Customer Insights & Behavioral Analysis: Experienced in uncovering customer trends, audience segments, behavioural patterns, and value opportunities using first-party, zero-party, and third-party data. I apply customer insight frameworks to improve targeting, segmentation, experience optimisation, and campaign effectiveness.
4 | Analytics Essentials: Known for developing innovative frameworks, methodologies, and reporting systems that unlock deeper insights, improve decision-making, and add strategic value to complex campaigns and business initiatives. capabilities in implementing, auditing, and optimising web and app tagging frameworks across Google Tag Manager, Firebase, Adobe Launch, as server-side tracking platforms.

Employment History:

Freelance Consultant
Data, Insights, Analytics
Current
December 2025

1 | Expertise: Currently freelancing working on specific projects on for small medium businesses an small marketing media agencies. clients
2 | Insights & Reporting: I manage the reporting and insigjts for the clients at the agency I freelance inculding onboarding and building the report on Looker Stuido as well as writing the taxonomy document.
3 | Thought Leadership: Challenged existing processes, introduced innovative analytical techniques, and promoted continuous improvement in data delivery ass an added value to the agency.
4 | Insights: I also ssist clients with compling insights into South Africa's media and consumer landscape.

PHD Media SA | Omnicom
Data Analyst
6 Months
June 2025 – November 2025

1 | Tools Expertise: Utilized tools such as Looker Studio, Google Sheets, Supermetrics (including Supermetrics Queries), Google Sheets Apps Script, GA4, Microsoft Power Query, Microsoft Power Automate, Microsoft Power BI, Microsoft Excel, and Microsoft PowerPoint. These were the primary tools used in this role.
2 | Measurement: Followed a structured and detailed process for creating client media reporting dashboards. This process included defining a reporting inventory that accounted for taxonomy documentation, data sources per dashboard, and raw data inputs used to generate consolidated views. The inventory also documented reporting objectives and identified dashboard recipients.
3 | Data Science & Automation: Applied data automation techniques using data science methodologies. Technical outputs included constructing and joining tables using BigQuery and SQL. These solutions were designed with a clear understanding of the limitations and advantages of Looker Studio and Google Sheets.
4 | Reporting Stewardship: In addition to dashboard development, served as the primary point of support for troubleshooting, maintaining, and resolving issues across agency Looker Studio dashboards. This included handling ad hoc requests, running updates, and scheduling automated data refreshes to ensure reporting accuracy and continuity across all client dashboards.
5 | Digital Analytics: Prepared ad hoc and scheduled performance reports, particularly for eCommerce clients requiring insight into how paid media contributed to actual sales. Leveraged GA4 expertise to deliver weekly funnel performance views and custom campaign performance reports presented in Microsoft PowerPoint.
6 | Reason for leaving: Contract

"Data without context is confusion." by Krista Nether

Lucid Performance Agency | Park Advertising
Digital Reporting Analyst
6 Months – Contract
October 2024 – March 2025

1 | Tools Expertise: Worked with Business Manager, DV360, Google Ads, Microsoft Excel, and Microsoft PowerPoint.
2 | Reporting Stewardship: Managed and delivered weekly and monthly digital performance media reports in line with agreed reporting cadences. These reports consisted of Looker Studio dashboards and PowerPoint presentations covering a portfolio of Nedbank business units running digital media campaigns.
3 | OpCom Reporting: Compiled and consolidated the full monthly Nedbank OpCom report in Excel. This report provided a detailed, attribution-based view of total paid media value and performance, tracking outcomes against AppsFlyer and Adobe Analytics conversion data.
4 | Reason for leaving: Contract

"If you cannot measure it, you cannot improve it." by Lord Kelvin
